

PLATFORMS

Trusted Voice. Proven Presence. Global Reach.

In today's world, whoever controls the tech, controls the culture. From media to money, classrooms to congregations—every arena of life is influenced by digital platforms. That's why at Sikhona, we don't just use platforms—we build them. With each platform we create, we carve out space for truth, innovation, dignity, ownership, and joy. Below is a glimpse of our digital ecosystem—a constellation of platforms designed for our people, by our people.

DoYou for
iPhone

DOYOU

Short Video Platform

DoYou is where creativity meets community—without compromise. Built for expression, connection, and ownership, it gives creators space to shine and earn on their terms. No noise, no bias—just real voices in motion.

DoYou for
Android

SIKHONA SOCIAL

A Platform for Everybody

A space to speak freely, create boldly, and connect meaningfully. Share videos, documents, ideas, and more without fear of being silenced. This is where the community thrives—not in silence, but in solidarity.

HEYYO

Content Creators Hub

HEYYO lets creators share, teach, and tell stories without censorship or algorithm games. Your content stays yours—seen, heard, and paid for on your own terms.

filemule

FILEMULE

Share Large Files

Filemule makes it easy to send what email can't—videos, PDFs, images, and more. Just upload, share a link, and you're done. No compressing, no delays—just fast, private transfer built for real-world needs.

SIKHONA HOST

World-Class Web Hosting

Whether you're launching a brand, building a portfolio, or creating a movement, gives your site a secure home. No tracking, no gimmicks—just fast, reliable hosting built with privacy and purpose in mind.
